

IDEATECH ENGINEERING

RAJKOT GUJARAT (INDIA)

Dear Sir/Madam,

Greetings from **Marathon Electric India!**

Since 1963, Marathon Electric has provided quality products for industrial and commercial applications. Marathon joined the Regal Family in 2004. Together, we are the largest manufacturer and exporter of motors in India. Worldwide we have achieved excellence through precision engineering, with one of the widest product range. Preferred mostly for tough running conditions and environment, clearly our motors remain **“at the heart of what drives your world”**.

Marathon is further able to meet the varying demands of a very broad base of industries and their applications - emergency power systems for hospitals, heavy industry power, oil and gas, utility applications, marine, chemical processing, food and beverage, refrigeration, transportation, construction, and on and on. You name the industry, and Marathon is likely a part of it offering products that convert power into motion.

Now we would like to introduce ourselves as Grove Gear, another family member of Regal. As a company, we are in the midst of simplification. While our customers know us best by our individual brand names, within our company we are one Regal, operating with a single vision and common initiatives. We are consolidating our product lines, standardizing our computer systems, reducing the number of legal entities and streamlining our product brands—all with the idea of making it easier for customers to do business with us. We are becoming a more dynamic enterprise—continuously innovating and growing to reach more people in more markets around the world. And we are doing so with the confidence that comes with our years of industry experience.

The entire **GROVE GEAR** team is committed to providing superior customer service and engineering support, exceptional design, manufacturing quality, ability to provide standard, modified standard and custom products, no matter how large or small. We are committed to providing outstanding quality, fine workmanship, timely delivery, providing High Quality, Dependable Power Transmission Products for Industry.

Grove Gear designs and builds tough, long lasting, energy efficient gear reducers and **GEAR+MOTOR™** to meet the increasing demands for efficiency. And the product range includes Helical Gear Reducers, Worm Gear Reducers, Helical Worm Reducers, Co-axial Helical Gear Reducers, Bevel Helical Gear Reducers, Parallel shaft Helical Gear Reducers, either as Gear boxes or Geared motors added to mechanical variators and motors.

The **QUADRO** series is our elite series of Italian make which provides our customers with preeminence quality, great machining, exceptional design and a great product

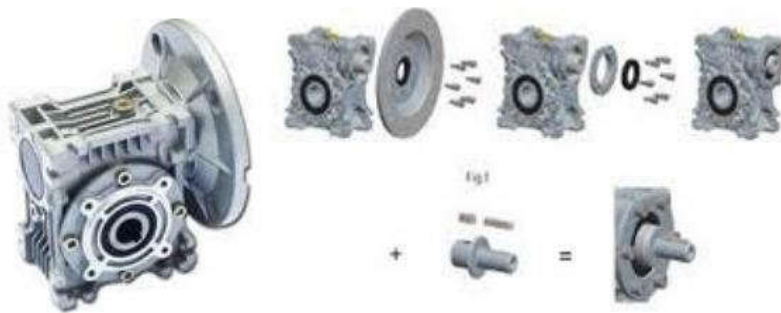

range. In a very small time our QUADRO series has replaced established brands such as Bonfiglioli, SEW, And Nord Drive system.

The company offers highest quality products, delivering great reliability, performance backed by global service network.

Following are the brief range of products manufactured by Grove Gear.

BODMO series Worm Gear Motors

Sizes 030 - 185, Ratio 5:1 - 100:1, Torque 2230Nm (max), Power 22 KW (max)

QUADRO series Worm Gear Motors

Sizes 030 - 150, Ratio 5:1 - 100:1, Torque 1500Nm (max), Power 15 KW (max)

BRAVO series Worm Gear Motors

Sizes 030 - 110, Ratio 5:1 - 100:1, Torque 1150Nm (max), Power 11 KW (max)

HC SERIES Coaxial Helical Gear Motors

Sizes HC17 - 167, Ratio 1.23:1 - 282.1:1, Torque 10000 Nm (max), Power up to 75KW

Electric Motors

Sizes 71 - 450, 2-4-6-8 poles, Power up to 1500 KW
